**Klausbachtal Nature in Constant Change**

Klausbachtal is the western part of the National Park, an area of approximately 800 m in length between St Bartholomä alluvial fan and the mountains of the Watzmann. The valley lies at the foot of the famous mountain and is a particularly scenic area where the water was dammed for centuries to create sizable Lake Klausbachtal.

**Ardachlack, Wildlife & Recreation**

Nature never ceases to amaze us. Klausbachtal, a typical valley in the National Park, is rich in wildlife and offers numerous opportunities for adventure. For this reason, the National Park aims to harmonize the preservation of biodiversity with the needs of nature conservation.

**Zoning Questions**

A challenging decision of the National Park is to harmonize the diverse environmental needs with the protected areas. The park's conservation priorities are focused on the preservation of both our natural and cultural heritage.
